DATTO BACKUP DEVICES AT A GLANCE

- Up to 3 Ghz Dual Core processor and 4 GB of DDR2 ram
- Available with up to 10 TB storage in a single device
- Gigabit Ethernet
- Optional ZFS technology provides access to previous data versions
- AJAX web interface for settings and configurations
- SAMBA with Full Active Directory support
- NFS file sharing
- Advanced and automatic bandwidth scheduling

THE Z SERIES DIFFERENCE

Z Series devices have the unique ability to take snapshots of the local file system. This provides easy access to previous versions of files when the device is used as a NAS. In addition, daily snapshots are stored off-site and retained for one year.
